

Haraka

Pride of the fleet is Haraka. With a name meaning 'fast' in Swahili (thanks to the twin Volvo Penta 250HP inboards which give her a top speed of 38 knots), this 35' Gulf Craft Sport Fishing boat is an impressive fishing machine. Walking down from the helm station into the luxuriously furnished galley, convertible into a bedroom, you will find a comfortable bathroom and guest bedroom easily providing total over night capability for four people. Catching, cleaning and barbecuing can all be done on the same huge cockpit deck. With so many fish in the sea, it may be hard to come up with a valid reason to return back to shore.

Haraka is fully equipped for all your needs. Seven Penn International rods and reels can be used simultaneously to increase your chances of a catch. Down riggers spread the lines and are easily accessible. The tuna tower provides the captain with a much higher view of the sea which allows him to spot the fish from further away. For long days out at sea the vessel has a head and comfortable seating down below in the spacious cabin if you want to get out of the sun for a while. All modern fishing and safety equipment is included, from GPS and fish finder to a full compliment of lifejackets and VHF radio.

With a length of over 35' and a beam of 11', Haraka has plenty of space on board. The facilities on board allow for longer trips than Timimi or Suli Suli. We regularly run three or five day charters to Pemba, Mafia Island and the famous Latham Island where in the past fishermen have taken time out from catching fish to snorkel amongst huge schools of tuna and alongside manta rays. On these trips we enjoy fantastic fishing and then can relax in the evening with a cold beer and barbeque the fish we have caught that day. You'll never eat fresher seafood than that!

Other boats: Suli Suli / Timimi
