

## Timimi

The Norwegians have a prestigious boat building history. From the long boats that crossed the Atlantic hundreds of years before Columbus to their latest modern fishing vessels they have never failed to build quality boats. Timimi is a 7.5m Windy from Norway and lives up to the history in every way. This custom built fishing boat is powered by twin 85HP outboard motors this vessel has enough power to reach some excellent fishing grounds including Leven Banks and Pemba Island in comfort and style. The crew of professional crew can guide beginners through their first trip but have enough experience to help seasoned fishermen.

Timimi carries a wide range of fishing equipment. She has downriggers so your lines won't get tangled and you can choose from thirty and fifty pound lines. The rods are a combination of Penn International and Shimano and are all in excellent condition. All that good equipment would be useless if there were no fish so the boat is equipped with a fish finder, GPS and VHF radio alongside all the usual safety equipment. There is space for four people to share the boat without a squeeze and inside the luxurious cabin you'll find sofas, cushions and a marine head for added comfort.

Other boats: Suli Suli / Haraka
